[Level Up](#) Sep 05 2020 Have you ever achieved something but still felt like something was missing? Have you ever thought that there must be more to life, like maybe there's something happy, fulfilled, successful people know that you don't? Are you sometimes happy but sometimes suffering in silence? Well, suffer no more. [Level Up](#) will show you how to live a life that is both fulfilling and successful in a real, meaningful way. The best part is that you get to be yourself; perhaps even MORE than you are right now. What Readers are Saying: "Level Up empowers readers to transform the way they view themselves starting now. Self-loathing, neediness, and anxiety are replaced with intense love for the self and others, acceptance and contentment. It is filled with radiating truth and practical advice that is invaluable in the world today. Level Up gets at the heart of what human beings long for." – Brandi Y. "Level Up is concise, has a ton of value packed into it, and it's fun to read. The book lays out the road to feeling amazing. All I have to do is follow directions." – Will J. "Level Up is so simple, yet profound. It will make a huge impact on anyone who takes the time to do the work and read the book." – Becca D. "Level Up is a wonderful personal development book for anyone looking to feel happier with themselves and live a life of purpose. It covers a vast range of subjects without leaving you feeling overwhelmed because they come from one central message of loving yourself more and for no specific reason other than that you are perfect just as you are. Level Up covered a lot of relevant topics for me, but sometimes from a different angle to how I've viewed them before. It gave another view and reminded me of things that are all too easily forgotten, like how frickin amazing I am. It made me look at my journey to love myself more and see that I am still a work in progress but now with a

heap more practical tools and ideas for making changes to that.” – Caroline L. “Level Up is the most useful book I’ve ever read. It left me with a sense of empowerment over my life. I will continue to read it for encouragement and I’m excited to put the ideas into practice in my daily life.” – Brenda D. “Numb to the humdrum and predictable vacillations of everyday existence, many of us sometimes wonder if there’s more to existence than just this. Legitimate questions about what we are and whether there’s something better lead to cultural clichés like “quarter century” and “midlife” crises. Proactively work through and navigate these crises – or just revisit how to find and realize your most authentic self by using this book. Level Up gives you a distillation of the most important concepts that can help you chart that path.” – Ali I. “I would recommend Level Up to anyone who is unsatisfied, afraid, desperate to change, or just generally uneasy about their own life. It is the best self-help book I’ve read and the only self-help book I’ve actually finished and will read again and again. It’s the only book I didn’t turn away from after trying to tackle exercises that didn’t make sense or have real life meaning.” – Kelly C. From the Back Cover Level Up will teach you: • How to feel permanently better inside every day in a healthy, sustainable way • How to be more confident all the time • How to be more popular without changing who you are • How to achieve REAL success and accomplish more • Why diets don’t work and what you should do to change your life instead • How to ACTUALLY “love yourself” • The main cause of social anxiety and what to do about it • How to raise your personal value • How to expand your comfort zone • How to recruit reality to work for you instead of against you • How to Level Up your personal power • How to use fear to your advantage • How to “self-soothe” • How to break codependent behavior patterns and be your true self • How to live a fulfilling life ...and more.

Domestic Bliss Aug 17 2021 Domestic Bliss is Rosemarie’s own unique and characteristically witty handbook that fills the gap left by the generation before us. The essential skills of how to keep your house from falling down around your ears are not taught in school, and our parents were so busy earning a living they had no time to pass on the wisdom the world sees as ‘common sense’. Well, common sense is not so common as is commonly supposed. This hands-on, down-to-earth guide focuses on those household problems and challenges you are most likely to encounter in real life: how to cure a dripping tap, combat condensation, and unblock a sink. You’ll also get to grips with a power drill, a plumb line, and a paintbrush. And find the answers to life’s little frustrations, like how to remove sticky labels, open supermarket plastic bags, and fit a cover onto a duvet without being swallowed. Many home references tell you how to do something, without telling you why. Rosemarie, though, asks ‘What is the point of a detailed explanation of how to bleed a radiator if you have no idea why it’s necessary?’ This guide is different because it takes the time to tell you why a particular technique is needed or beneficial, giving you the background and explaining the point of it all.

Tantra Exposed Aug 24 2019 Tantra is a powerful buzzword. But like most buzzwords, it has been misrepresented and bathed in sensationalism, and its original intention and power were forgotten. This book intends to change that. This is the Tantric Resurrection. Despite often being mistakenly seen as “spiritual sex,” Tantra is actually a vehicle for transformation, transcendence, and integration—and it should be presented as such, without distortion, secret information, hidden practices, or superfluous teachings. This work is not about the westernized, sexualized, modern branch of Tantra, nor about the scholarly, intellectual, more complex branch typically found in large, dense books, often written by translators or pundits. *Tantra Exposed* presents a revolutionary way of approaching and using Tantra to overcome suffering, transcend your current limits, and experience the ecstatic bliss and wholeness inherent in your true nature; it guides you toward complete fulfillment. The wisdom infused in this accessible, deep, and fascinating book offers you powerful and effective tools that are much more than just instructions—they guide you to awaken and embody your highest potential; they uproot, purify, and transform your beliefs, blockages, and negative conditioning into freedom. What you will find in the book: The demystification and discovery of the real meaning and purpose of Tantra. Paradigm-breaking insights regarding Tantric Initiation, Shaktipat, and the external and internal Guru. The truth about the Left-Hand Path and the “sexualization” of Tantra. The profound relationship between Kundalini, Tantra, and Enlightenment. Straightforward transformative guidance, transcendental Tantric Sadhana, and remarkable integrative wisdom found nowhere else. Comprehensive instructions on how to dissolve the residual “smoke-like” feeling of having a body even after you’ve

already extinguished the illusory "mayic fire." The complete unveiling of the Non-dual dimension of Tantra and how to fully embody it through Spiritual Immanence. And much more. There comes a moment in your life when your desire for completeness expands past conventional seeking; when you feel a calling to explore beyond the known and visible. If you are reading this book, then chances are that such a yearning has already been awakened. If so, then this is your book. Let's unfold Tantra together. From the author of the best-seller *Kriya Yoga Exposed* and *Kundalini Exposed*.

**Online Dating Bliss** Jun 22 2019 Online dating is not all fun and games and there are a lot of things that a person has to know about online dating before one gets into the intricacies of it. Online dating may seem to be the simplest thing in the world but it is not. It should be viewed in all earnestness or things could go haywire. Every game has its rules and unless you know all the rules, you just can't become a good player and eventually a winner. There are so many kinds of people around. Just look around you - how many people you know look the same? Sizes, builds, shapes, features ... they are all so different! And that is just about the external appearances. And when it comes to character, it becomes a very different story altogether. Take a trip down memory lane, go back to your classrooms and look around. A classroom is one place where we get to interact with a lot of different people on a very close basis. We get to rub shoulders and corners with very different people and we get to know them on a one to one basis. So how many of your classmates did you genuinely like? I don't mean like them as classmates but as people. Was it easy to get along with all of them? That is why we often end up with best friends or clichés in classrooms. We do not and do not have to like everybody. The tastes and interests of one person might match with ours while the tastes and interests of another person may be at complete loggerheads with ours. So when it comes to dating, it is very much the same story. But over here, there are some strings attached. Unlike in a classroom contact, most people go on dates with a more impressive purpose, and that is to find life mate. There are a hundred and one things that should match before two people decide to spend the rest of their lives with each other. Many people are of the opinion that they do not need any help with dating. They may be right because nobody knows a person's tastes and likes better than the person himself or herself.

Bliss means connecting with your true self more deeply and arriving at a place of ease and awareness. If you do follow your bliss you put yourself on a kind of track that has been there all the while, waiting for you, and the life that you ought to be living is the one you are living.

"It's a fascinating story, full of twists, and has elements of paranormal, mystery, romance. There are some really exciting and touching parts. Highly recommend " Veronica, LibriAmiciMiei (Italy) "I've read books about disappearances, even mysterious ones, but haven't read anything like this. It's not just the actual plot that makes this book unique; it's the way in which the author tells the story... There were a few times I was at a loss as to where the author was taking us, and was very surprised and delighted to see where we ended up...I found the story really interesting and enjoyed where the author took the disappearances and how she described their time 'lost' and the return. It gave it a very sci-fi feel, and I thought that was brilliant. Overall, I think this is a great read. I would love to see more by this author...I thought this story was unique and interesting and was told well." Natural Bri Book Review

*Freeplay* Jun 26 2022 We are the kids who grew up playing *Space Invaders*, *Frogger*, *Q-bert*, and *Super Mario Brothers*. Now, as adults, we're respectable contributors to a civilized society: professionals, parents, leaders, and policy makers. Still, the imagery of the games we played as children remains permanently seared into our personal and collective unconscious. The game world now shapes the way we think. It forms the way we perceive and interact with the world around us. The common view is that video games are an escape from the real world. But in *FREEPLAY*, author Jordan Shapiro shows us how the video games of our past (and present) function as interactive mythology. They are non-linear stories that help us derive meaning from the complicated paradoxes of everyday life. *FREEPLAY* is *Zen and the Art of Motorcycle Maintenance* for a new generation: part philosophy, part psychology, part spirituality, but ALL video games. Shapiro deftly blends Jungian and archetypal psychology in a way that is accessible and applicable to everyone. *FREEPLAY* is philosophy for the life world accessed through the user interface of the game world. Game on.

*Bliss In The Wild* Dec 09 2020 So, what is this thing called bliss and why is everyone following it? In our on-going competition to keep up with the feminine ideal, there are countless daily opportunities for us to miss the bar set by *Victoria's Secret*, *Martha Stewart*, *PTA room mothers*, and *Cosmopolitan* magazine. One thing I've learned in working with hundreds of coaching clients over the years is the distinct need to expand our core definition of "bliss." I've learned that naturally happy people don't live in a constant state of Zen. People who show up from a place of consistent joy are awake to the whole human experience-the good, the bad, and the ugly. Maybe that's not what you wanted to hear. Perhaps you had hoped this was a guidebook for being happy all the time. Bliss doesn't mean you have your life all figured out and that problems elude you. (Spoiler Alert: That will never happen!) It just means you choose to find moments of appreciation and beauty, not just when the evidence is good, but through whatever monotony or hell is going on in your life. This interactive book will challenge your thinking about the concept of both bliss and chaos in your life as it takes you on a light-hearted, fun and tactical journey to discovering what brings you joy and how to get there more often.
