TWENTY-FIRST CENTURY'S FUEL SUFFICIENCY ROADMAP Dec 04 2020

Things were always like this; you just didn't notice Oct 14 2021 Do you like it when terrible things happen to bad people? Of course! Who doesn't? But it does not happen often enough, so fiction needs to step in to correct the imbalance. In this anthology, poetic justice takes place in a variety of unpleasant, satisfying ways. Innocent characters get sucked into the grinder too, but remember it is okay not to feel bad for them, because deep down they probably had it coming... And also they're not real. The stories in here are both humorous and shocking. They leave an impression with the reader, whether by making them laugh or lay awake at night. From to sci-fi comedy to horror, there is not one exact genre, but also not a single boring story. People are abducted by well-endowed aliens, get tortured for a living, have their hearts explode, find forbidden love, and there is even a talking dog!

Ultimate Point of Vulnerability Jan 17 2022 A cure for cancer is discovered in the 1960s, only to be covered up by a secret syndicate, The Foundation, for fear that the cure will wreak havoc on the U.S. economy. Decades later, The Foundation, which has now gained power over nearly every aspect of American life, is trying to manage the economic crisis brought on by terrorist attacks and the same National Health Care system they had put in motion years before. Now, just as economic chaos looms, it is learned that China has the long withheld cure and intends to release it, which could further devastate the U.S. economy and its sovereignty. Will the U.S. be able to recover? Or has The Foundation taken Americans to the brink of no return? Is this America's Ultimate Point of Vulnerability, a "perfect storm" of divergent elements, crashing together at the same time, overwhelming enough to destroy the most powerful country in the world? About the Author Bob G. Shupe entered the insurance industry in 1977 as a finance and insurance agent for a local automobile dealership. In 1978 he was hired by the Nationwide Insurance Group as a full line agent. During his tenure he was also a district manager and commercial employee benefits and commercial property and casualty trainer. During his final years with Nationwide, Mr. Shupe was a leading independent producer for that company. It was during those years that he attained much of his technical knowledge about insurance. Bob Shupe is a much sought after speaker on the subject of health care costs. He has spoken in several states and is constantly scheduling other events concerning this very timely and controversial subject. He has been the key note speaker on the platform with CEOs from several major carriers and recently testified before the Pennsylvania State Legislature regarding failed Tennessee legislation related to national health care initiatives. Ultimate Point of Vulnerability is his third book.

Chevy SS Jul 23 2022 DIV On the 1957 auto show circuit, Chevrolet unveiled a show car based on its Corvette and dubbed it the "Super Sport." The performance car world took one look and never looked back. A combination of styling and performance upgrades, the SS package could turn something as mundane as a six-cylinder Malibu into the fire-breathing Chevelle SS396. This book traces the long line of legendary SS models, from Chevy's Super Sport version of its popular Impala, which marked the dawn of the muscle car era, to today's Impala SS. Featuring the work of acclaimed photo ace David Newhardt, Chevy SS: The Super Sport Story provides a close-up, detailed, full-color look at such classic muscle cars as the Chevelle, the El Camino, the Malibu, and the Monte Carlo as well as today's hot Camaro SS. The book is a fittingly elegant celebration of the cars that redefined high performance and defined an era./div

Cry in the Dark Feb 18 2022 Stranded and alone on a bitterly cold night in the North Idaho mountains, Abigail Sandstone has few options. She is out of gas, has no cell phone service, and is facing a very long jog down a steep mountain road back to town. Then she spies lights across the canyon. Can this be her salvation? She climbs onto the opposite road and finds the headlights of a dark, idling limousine outlining three dangerous-looking thugs brutally torturing a defenseless woman. Abigail searches for a way to help and is stunned when the woman breaks free of her captors and flings a set of keys her way while fleeing toward the roadside brush. Shots ring out, the woman disappears from sight, and now Abigail is the new target. As the men chase her into the cold dark mountains, Abigail quickly discovers that they are no ordinary thugs. These men are expert trackers and trained killers. Without a gun or survival gear, she must use her self-defense training and knowledge of the forests to stay ahead of them. Tired and alone, she fights to outdistance herself from the killers. But is her desperate will to survive enough to get her back home to her family? Betrothed Jul 11 2021 This book, inter alia, tries to encourage young people to first know themselves and each other and save sex for marriage because sexual intimacy during the first date blurs vision and leads to warped reasoning. The author believes the traditional betrothal process of the Igbo tribe helps prevent incest and helps the woman save her virginity, self-esteem, and dignity.

Level Up Aug 12 2021 Leveling up is the only foolproof success strategy. It means owning your responsibility for taking control of who you are, what you do, and what your life will become. This book is written for the men and women grinding it out every day at work and wanting so badly to be more valued and get to the next level. It's for the young professionals entering the workforce with big dreams who want to know exactly what it takes to advance in their career. It's for anyone who has wanted more out of life but just hasn't been able to make the shift to take control of their future. Many books teach you the steps you need to take to change your life. But they're missing the critical foundational action that is necessary to ensure your new habits stick—the one element that distinguishes high-achieving professionals from those still waiting for success to find them. Most people know what they should do, and yet they don't do it. The fact is that it does not matter how much you know—nothing will change for you unless you own the responsibility of leveling up. Alyson Van Hooser has discovered the crucial knowledge you must have, actions you must take, and areas of your life you must own if you want to shift the trajectory of your professional life to work in your favor. In Level Up, you'll learn the secrets to professionalization and the exact steps required to gain respect, increase opportunity, and harness the power to crush all your goals, including: How to lay down your law so you don't get off track How to get ahead by identifying and strategically adapting to what motivates individuals in different generations, from different social classes, with different life experiences How to make your emotions work for rather than against you Ways to make networking impressive instead of awkward What self-care truly means (hint: choosing YOU and your goals) And much more! Be bold. Make your own hype. And be accountable to the grind. Success and growth are often uncomfortable, but you're not going to crush your goals by sitting idle, doing the bare minimum, and following the herd. It's time to LEVEL UP.

Last Blue Christmas Nov 15 2021 Not on Officer Maggie Kyle's Christmas bingo card: • A homemade bomb in a bus station locker. • A child, the prime suspect in the bombing. • Her partner of ten years abandoning her to solve the case on her own. Max St. James might be the worst cop in the world—or at least in Toronto: • He fell in love with his partner. • He's the reason she never became a detective. • He doesn't much care who planted the bomb. The IED's blast ignites years of tension, sending Maggie and Max careening in opposite directions—but opposites still attract. Can they find a way to come together to solve the case before another bomb goes off? And will it mean another ten years sacrificing the future they want for the partnership they already have?
