As recognized, adventure as skillfully as experience approximately lesson, amusement, as capably as bargain can be gotten by just checking out a books **Guided The Ford Carter Years Answers** afterward it is not directly done, you could consent even more on this life, nearly the world.

We pay for you this proper as skillfully as easy exaggeration to get those all. We meet the expense of **Guided The Ford Carter Years Answers** and numerous ebook collections from fictions to scientific research in any way. in the middle of them is this **Guided The Ford Carter Years Answers** that can be your partner.

*Jimmy Carter in Africa* Feb 29 2020 In the mid-1970s, the Cold War had frozen into a nuclear stalemate in Europe and retreated from the headlines in Asia. As Gerald Ford and Jimmy Carter fought for the presidency in late 1976, the superpower struggle overseas seemed to take a backseat to more contentious domestic issues of race relations and rising unemployment. There was one continent, however, where the Cold War was on the point of flaring hot: Africa. *Jimmy Carter in Africa* opens just after Henry Kissinger's failed 1975 plot in Angola, as Carter launches his presidential campaign. The Civil Rights Act was only a decade old, and issues of racial justice remained contentious. Racism at home undermined Americans' efforts to "win hearts and minds" abroad and provided potent propaganda to the Kremlin. As President Carter confronted Africa, the essence of American foreign policy—stopping Soviet expansion—slammed up against the most explosive and raw aspect of American domestic politics—racism. Drawing on candid interviews

with Carter, as well as key U.S. and foreign diplomats, and on a dazzling array of international archival sources, Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself. In the face of two major tests, in Rhodesia and the Horn of Africa, Carter grappled with questions of Cold War competition, domestic politics, personal loyalty, and decision-making style. Mitchell reveals an administration not beset by weakness and indecision, as is too commonly assumed, but rather constrained by Cold War dynamics and by the president's own temperament as he wrestled with a divided public and his own human failings. *Jimmy Carter in Africa* presents a stark portrait of how deeply Cold War politics and racial justice were intertwined.

**The Paintings of Jimmy Carter** Jun 02 2020 In the 1980s former President Jimmy Carter took up painting in his free time. Using his home woodworking shop as a studio, Carter has since produced more than a hundred works, capturing the landscapes and people of his beloved Plains, Georgia, and the far-flung places to which he has

traveled to advance the work of the The Carter Center. This book showcases in one place for the first time, more than fifty of his favorite paintings. The works are accompanied by his own written narrative.

**The Carter Presidency** Sep 29 2022 After the Nixon and Ford administrations, liberal Democrats hoped Jimmy Carter's election in 1976 would restore the New Deal agenda in the White House. Instead, during four tumultuous years in office, Carter endorsed many of the fiscal and economic policies later espoused by his Republican successor, Ronald Reagan. But Carter also backed most New Deal social programs and, however reluctantly, pursued a traditional containment foreign policy. In this book more than a dozen eminent scholars provide a balanced overview of key elements of Carter's presidency, examining the significance of his administration within the context of evolving American policy choices after World War II. They seek not only to understand the troubled Carter presidency but also to identify the changes that precipitated and accompanied the demise of the New Deal order. By the time Carter took office many Americans had become disenchanted with big government and welfare spending, and his presidency is viewed in these pages as a transitional administration. As this volume demonstrates, Carter's dilemma emerged from his effort to steer a course between traditional expectations of federal government and new political and economic realities. While most of the contributors agree that his administration may be justly criticized for failing to find that course, they generally conclude that Carter was more successful than his critics acknowledge. These thirteen original essays cover such topics as the economy, trade and industrial policies, welfare reform, energy, environment, civil rights, feminism, and foreign policy. They offer thoughtful assessments of Carter's performance, focusing on policy both as cause and effect of the post-industrial transformation of American society that shadowed his administration. A final essay shows how Carter's public spirited post-presidential career has made him one of America's greatest ex-presidents. Grounded on research conducted at the Carter Library, *The Carter Presidency* is an incisive reassessment of

an isolated Democratic administration from the vantage point of twenty years. It is a milestone in the historical appraisal of that administration, inviting us to take a new look at Jimmy Carter and see what his presidency represented for a dramatically changing America.

**Camelot's End** Nov 27 2019 From a strange, dark chapter in American political history comes the captivating story of Ted Kennedy's 1980 campaign for president against the incumbent Jimmy Carter, told in full for the first time. The Carter presidency was on life support. The Democrats, desperate to keep power and yearning to resurrect former glory, turned to Kennedy. And so, 1980 became a civil war. It was the last time an American president received a serious reelection challenge from inside his own party, the last contested convention, and the last all-out floor fight, where political combatants fought in real time to decide who would be the nominee. It was the last gasp of an outdated system, an insider's game that old Kennedy hands thought they had mastered, and the year that marked the unraveling of the Democratic Party as America had known it. *Camelot's End* details the incredible drama of Kennedy's challenge -- what led to it, how it unfolded, and its lasting effects -- with cinematic sweep. It is a story about what happened to the Democratic Party when the country's long string of successes, luck, and global dominance following World War II ran its course, and how, on a quest to recapture the magic of JFK, Democrats plunged themselves into an intra-party civil war. And, at its heart, *Camelot's End* is the tale of two extraordinary and deeply flawed men: Teddy Kennedy, one of the nation's greatest lawmakers, a man of flaws and of great character; and Jimmy Carter, a politically tenacious but frequently underestimated trailblazer. Comprehensive and nuanced, featuring new interviews with major party leaders and behind-the-scenes revelations from the time, *Camelot's End* presents both Kennedy and Carter in a new light, and takes readers deep inside a dark chapter in American political history.

*Extraordinary Circumstances* Aug 24 2019 An illustrative journey through Gerald Ford's years in office documents the day-to-day political and private life of the President and his family.

*Then Everything Changed* Mar 31 2020 The New  
York Times bestseller from Jeff Greenfield, the  
renowned CBS News senior political  
correspondent and veteran of CNN and ABC  
news, offering an alternative history of America.  
These things are true: \* In December 1960, a  
suicide bomber paused when he saw the young  
President-elect John F. Kennedy's family come to  
the door to wave good-bye.... \* In June 1968,  
Robert F. Kennedy declared victory in California,  
and then instead of heading to another ballroom,  
as intended, was hustled off through the  
kitchen.... \* In October 1976, President Ford  
made a critical gaffe in a debate against Jimmy  
Carter, turning the tide in an election that had  
been rapidly narrowing. But what if they had  
gone the other way? In three narratives based  
on memoirs, oral histories, fresh reporting with  
key participants, and his own knowledge of the  
principal players, Jeff Greenfield explores how  
accidents of fate could have altered the course  
of history. The scenarios that Greenfield depicts  
are startlingly realistic, rich in detail, shocking  
in their projections, but always deeply,  
remarkably plausible.

**Palestine** Nov 07 2020 The former president  
draws on his understanding of Middle East  
history and his personal relationships with  
regional leaders to share an assessment of what  
he believes is necessary to bring lasting peace to  
Israel while preserving Palestinian dignity.

*Carter Vs. Ford* Oct 31 2022

**Negotiation, the Alternative to Hostility** Jun  
22 2019

**Why Not the Best?** Mar 24 2022 In this  
autobiography, Jimmy Carter details the youth  
and experiences that led him to seek the highest  
office in the land. He describes his idyllic  
childhood, his naval career, his strong Christian  
underpinnings, and the values of his mother and  
father.

**Energy Crises** Nov 19 2021 The 1970s were a  
decade of historic American energy  
crises—major interruptions in oil supplies from  
the Middle East, the country's most dangerous  
nuclear accident, and chronic shortages of

natural gas. In *Energy Crises*, Jay Hakes brings  
his expertise in energy and presidential history  
to bear on the questions of why these crises  
occurred, how different choices might have  
prevented or ameliorated them, and what they  
have meant for the half-century since—and likely  
the half-century ahead. Hakes deftly intertwines  
the domestic and international aspects of the  
long-misunderstood fuel shortages that still  
affect our lives today. This approach, drawing on  
previously unavailable and inaccessible records,  
affords an insider's view of decision-making by  
three U.S. presidents, the influence of their  
sometimes-combative aides, and their often  
tortuous relations with the rulers of Iran and  
Saudi Arabia. Hakes skillfully dissects inept  
federal attempts to regulate oil prices and  
allocation, but also identifies the decade's more  
positive legacies—from the nation's first massive  
commitment to the development of alternative  
energy sources other than nuclear power, to the  
initial movement toward a less polluting, more  
efficient energy economy. The 1970s brought  
about a tectonic shift in the world of energy.  
Tracing these consequences to their origins in  
policy and practice, Hakes makes their lessons  
available at a critical moment—as the nation  
faces the challenge of climate change resulting  
from the burning of fossil fuels.

Sources of Strength Aug 17 2021 Former  
President Jimmy Carter has won the respect and  
affection of millions for his long career as a  
humanitarian, a peacemaker, and a model of  
faith in action. The Sunday school classes he  
leads at his hometown church in Plains, Georgia,  
are legendary. "These weekly sessions . . . are  
remarkable for the ability of regular folks to  
walk in, grab a seat, and exchange views with  
the thirty-ninth president of the United States,"  
says The New York Times. "But they are also  
remarkable for what Mr. Carter has to say." For  
*Sources of Strength*, President Carter has culled  
fifty-two of his favorite Bible lessons—one for  
each week of the year—from the fifteen hundred  
or so he has taught over the decades. A  
thoughtful and inspiring book, *Sources of  
Strength* captured the heart of the country when  
it was published in hardcover, and became an  
immediate national bestseller. Now available in  
paperback, it can be enjoyed on its own or as the  
companion volume to Carter's bestselling

spiritual autobiography, *Living Faith*. Jimmy Carter was president of the United States from 1977 to 1981. He is the author of thirteen other books, including *Always a Reckoning*, *The Virtues of Aging*, and *Living Faith*. In 1982 he founded the Carter Center, a nonprofit and nonpartisan organization in Atlanta that addresses national and international issues of public policy. Carter and his wife, Rosalynn, live in Plains, Georgia.

*Gerald R. Ford* Apr 12 2021 "Not since Harry Truman succeeded Franklin D. Roosevelt twenty-nine years earlier had the American people known so little about a man who had stepped forward from obscurity to take the oath of office as President of the United States." —from Chapter 4 This is a comprehensive narrative account of the life of Gerald Ford written by one of his closest advisers, James Cannon. Written with unique insight and benefiting from personal interviews with President Ford in his last years, *Gerald R. Ford: An Honorable Life* is James Cannon's final look at the simple and honest man from the Midwest.

**Shadow** Feb 20 2022 Twenty-five years ago, after Richard Nixon resigned the presidency, Gerald Ford promised a return to normalcy. "My fellow Americans, our long national nightmare is over," President Ford declared. But it was not. The Watergate scandal, and the remedies against future abuses of power, would have an enduring impact on presidents and the country. In *Shadow*, Bob Woodward takes us deep into the administrations of Ford, Carter, Reagan, Bush and Clinton to describe how each discovered that the presidency was forever altered. With special emphasis on the human toll, Woodward shows the consequences of the new ethics laws, and the emboldened Congress and media. Powerful investigations increasingly stripped away the privacy and protections once expected by the nation's chief executive. Using presidential documents, diaries, prosecutorial records and hundreds of interviews with firsthand witnesses, Woodward chronicles how all five men failed first to understand and then to manage the inquisitorial environment. "The mood was mean," Gerald Ford says. Woodward explains how Ford believed he had been offered a deal to pardon Nixon, then clumsily rejected it and later withheld all the details from Congress

and the public, leaving lasting suspicions that compromised his years in the White House. Jimmy Carter used Watergate to win an election, and then watched in bewilderment as the rules of strict accountability engulfed his budget director, Bert Lance, and challenged his own credibility. From his public pronouncements to the Iranian hostage crisis, Carter never found the decisive, healing style of leadership the first elected post-Watergate president had promised. Woodward also provides the first behind-the-scenes account of how President Reagan and a special team of more than 60 attorneys and archivists beat Iran-contra. They turned the Reagan White House and United States intelligence agencies upside down investigating the president with orders to disclose any incriminating information they found. A fresh portrait of an engaged Reagan emerges as he realizes his presidency is in peril and attempts to prove his innocence. In *Shadow*, a bitter and disoriented President Bush routinely pours out his anger at the permanent scandal culture to his personal diary as a dozen investigations touch some of those closest to him. At one point, Bush pounds a plastic mallet on his Oval Office desk because of the continuing investigation of Iran-contra Independent Counsel Lawrence Walsh. "Take that, Walsh!" he shouts. "I'd like to get rid of this guy." Woodward also reveals why Bush avoided telling one of the remaining secrets of the Gulf War. The second half of *Shadow* focuses on President Clinton's scandals. Woodward shows how and why Independent Counsel Kenneth Starr's investigation became a state of permanent war with the Clintons. He reveals who Clinton really feared in the Paula Jones case, and the behind-the-scenes maneuvering and ruthless, cynical legal strategies to protect the Clintons. *Shadow* also describes how impeachment affected Clinton's war decisions and scarred his life, his marriage and his presidency. "How can I go on?" First Lady Hillary Clinton asked in 1996, when she was under scrutiny by Starr and the media, two years before the Lewinsky scandal broke. "How can I?" *Shadow* is an authoritative, unsettling narrative of the modern, beleaguered presidency.

At the White House Sep 25 2019 Details Pierpoint's experiences and observations during

his career as a CBS White House correspondent, providing his view of the presidency during the Eisenhower, Kennedy, Johnson, Nixon, Ford, and Carter administrations

*The Little Baby Snoogle-Fleejer* Feb 08 2021

“Once upon a time there was a little boy named Jeremy who lived with his mother in a small house near the sea. His mother earned a bare living for the two of them by washing clothes for some of the wealthy families in their town. Jeremy loved her very much.” So begins the enchanting fairy tale president Jimmy Carter first spun for his daughter Amy as a child. Originally published in 1995, this favorite family story has been joined with Amy Carter’s vibrant illustrations to bring to life a secret friendship that produces unexpected rewards when tragedy looms in a young boy’s life.

*The Outlier* Mar 12 2021 “Important . . . [a] landmark presidential biography . . . Bird is able to build a persuasive case that the Carter presidency deserves this new look.”—The New York Times Book Review An essential re-evaluation of the complex triumphs and tragedies of Jimmy Carter’s presidential legacy—from the expert biographer and Pulitzer Prize-winning co-author of *American Prometheus* Four decades after Ronald Reagan’s landslide win in 1980, Jimmy Carter’s one-term presidency is often labeled a failure; indeed, many Americans view Carter as the only ex-president to have used the White House as a stepping-stone to greater achievements. But in retrospect the Carter political odyssey is a rich and human story, marked by both formidable accomplishments and painful political adversity. In this deeply researched, brilliantly written account, Pulitzer Prize-winning biographer Kai Bird deftly unfolds the Carter saga as a tragic tipping point in American history. As president, Carter was not merely an outsider; he was an outlier. He was the only president in a century to grow up in the heart of the Deep South, and his born-again Christianity made him the most openly religious president in memory. This outlier brought to the White House a rare mix of humility, candor, and unnerving self-confidence that neither Washington nor America was ready to embrace. Decades before today’s public reckoning with the vast gulf between America’s ethos and its actions, Carter looked out on a

nation torn by race and demoralized by Watergate and Vietnam and prescribed a radical self-examination from which voters recoiled. The cost of his unshakable belief in doing the right thing would be losing his re-election bid—and witnessing the ascendance of Reagan. In these remarkable pages, Bird traces the arc of Carter’s administration, from his aggressive domestic agenda to his controversial foreign policy record, taking readers inside the Oval Office and through Carter’s battles with both a political establishment and a Washington press corps that proved as adversarial as any foreign power. Bird shows how issues still hotly debated today—from national health care to growing inequality and racism to the Israeli-Palestinian conflict—burned at the heart of Carter’s America, and consumed a president who found a moral duty in solving them. Drawing on interviews with Carter and members of his administration and recently declassified documents, Bird delivers a profound, clear-eyed evaluation of a leader whose legacy has been deeply misunderstood. *The Outlier* is the definitive account of an enigmatic presidency—both as it really happened and as it is remembered in the American consciousness.

**A Government as Good as Its People** May 26 2022 Brings together campaign speeches, interviews, and news conference quotations that reveal the thirty-ninth president's views on such issues as equal justice, education, foreign policy, and consumerism

**Keeping Faith** Jul 04 2020

**President Carter** Aug 29 2022 The definitive history of the Carter Administration from the man who participated in its surprising number of accomplishments—drawing on his extensive and never-before-seen notes. Stuart Eizenstat was at Jimmy Carter’s side from his political rise in Georgia through four years in the White House, where he served as Chief Domestic Policy Adviser. He was directly involved in all domestic and economic decisions as well as in many foreign policy ones. Famous for the legal pads he took to every meeting, he draws on more than 5,000 pages of notes and 350 interviews of all the major figures of the time, to write the comprehensive history of an underappreciated president—and to give an intimate view on how the presidency works. Eizenstat reveals the

grueling negotiations behind Carter's peace between Israel and Egypt, what led to the return of the Panama Canal, and how Carter made human rights a presidential imperative. He follows Carter's passing of America's first comprehensive energy policy, and his deregulation of the oil, gas, transportation, and communications industries. And he details the creation of the modern vice-presidency. Eizenstat also details Carter's many missteps, including the Iranian Hostage Crisis, because Carter's desire to do the right thing, not the political thing, often hurt him and alienated Congress. His willingness to tackle intractable problems, however, led to major, long-lasting accomplishments. This major work of history shows first-hand where Carter succeeded, where he failed, and how he set up many successes of later presidents.

*An Hour Before Daylight* Oct 26 2019 The former president offers an intriguing account of growing up on a Georgia farm during the Depression and provides incisive profiles of the people who shaped his life: his segregationist farmer father, strong-willed nurse mother, eccentric relatives, boyhood friends, and others.

**Jimmy Carter in Plains** Oct 19 2021 The physical connections to most American presidents are deeply rooted in the past and unfamiliar. One can no longer see Washington's birthplace or William Henry Harrison's log cabin. Plains, Georgia, is different, and the attachment Americans have for it remains truly unique. *Jimmy Carter in Plains: A Presidential Hometown* tells the inspirational story of how one man and his community transformed a nation. When Jimmy Carter, a one-term governor of Georgia, announced his candidacy for president, few took him seriously. Yet, in just two years, he managed to pull off a spectacular and unprecedented victory, thanks to his personal style of politicking and the support of his hometown. Many of his neighbors campaigned for him, and they became known as the "Peanut Brigade." Crowds started to flock to the sleepy hamlet of Plains, making celebrities out of the candidate's mother, younger brother, and daughter. The exceptional photographs of Charles W. Plant guide the reader through the 1976 election, which made Plains "America's hometown."

**The Personal Beliefs of Jimmy Carter** Sep 05 2020 The former president incorporates scriptural passages, personal experiences, and anecdotes about people who inspired him to show how a dynamic faith can enrich a life, and offers scriptures on various topics with his views.

*Right Star Rising: A New Politics, 1974-1980* Jul 24 2019 An authoritative history of the right turn in American national politics during the Ford-Carter years. On the face of it, the Ford-Carter years seem completely forgettable. They were years of weak presidential leadership and national drift. Yet, as Laura Kalman shows in this absorbing narrative history, the contours of our contemporary politics took shape during these years. This was the incubation period for a powerful movement on the right that was to triumph with Ronald Reagan's election in 1980. These years also marked the coming of age of the social movements of the 1960s, as their causes moved from the streets to the courts for mediation. Supreme Court decisions on affirmative action and the scope of privacy rights had immense social and political impact. The nation experienced an energy crisis, a sharp economic downturn, and a collision with fundamentalism in Iran that set the terms for coming crises. Kalman's navigation of this eventful political and social terrain is expert and riveting.

*Jimmy Carter's Economy* Jan 22 2022 The massive inflation and oil crisis of the 1970s damaged Jimmy Carter's presidency. In *Jimmy Carter's Economy*, Carl Biven traces how the Carter administration developed and implemented economic policy amid multiple crises and explores how a combination of factors beyond the administration's control came to dictate a new paradigm of Democratic Party politics. Jimmy Carter inherited a deeply troubled economy. Inflation had been on the rise since the Johnson years, and the oil crisis Carter faced was the second oil price shock of the decade. In addition, a decline in worker productivity and a rise in competition from Germany and Japan compounded the nation's economic problems. The resulting anti-inflation policy that was forced on Carter included controlling public spending, limiting the expansion of the welfare state, and postponing

popular tax cuts. Moreover, according to Biven, Carter argued that the ambitious policies of the Great Society were no longer possible in an age of limits and that the Democratic Party must by economic necessity become more centrist.

**Sharing Good Times** May 02 2020 The former president and best-selling author of *Keeping Faith* recalls some of the simple joys that he has enjoyed throughout the years, especially those that he has shared with members of his family, friends, and colleagues, from attending big league baseball games and annual holiday trips with his family to working together at the Carter Center. 350,000 first printing.

**White House Diary** Jul 16 2021 The edited, annotated diary of President Jimmy Carter--filled with insights into his presidency, his relationships with friends and foes, and his lasting impact on issues that still preoccupy America and the world Each day during his presidency, Jimmy Carter made several entries in a private diary, recording his thoughts, impressions, delights, and frustrations. He offered unvarnished assessments of cabinet members, congressmen, and foreign leaders; he narrated the progress of secret negotiations such as those that led to the Camp David Accords. When his four-year term came to an end in early 1981, the diary amounted to more than five thousand pages. But this extraordinary document has never been made public--until now. By carefully selecting the most illuminating and relevant entries, Carter has provided us with an astonishingly intimate view of his presidency. Day by day, we see his forceful advocacy for nuclear containment, sustainable energy, human rights, and peace in the Middle East. We witness his interactions with such complex personalities as Ted Kennedy, Henry Kissinger, Joe Biden, Anwar Sadat, and Menachem Begin. We get the inside story of his so-called "malaise speech," his bruising battle for the 1980 Democratic nomination, and the Iranian hostage crisis. Remarkably, we also get Carter's retrospective comments on these topics and more: thirty years after the fact, he has annotated the diary with his candid reflections on the people and events that shaped his presidency, and on the many lessons learned. Carter is now widely seen as one of the truly wise men of our time. Offering an

unprecedented look at both the man and his tenure, *White House Diary* is a fascinating book that stands as a unique contribution to the history of the American presidency.

**A "hollow Army" Reappraised** Oct 07 2020 For more than 3 decades, the term "hollow army" or the more expansive idiom, "hollow force," has represented President Carter's alleged willingness to allow American military capability to deteriorate in the face of growing Soviet capability. The phrase continues to resonate today. In this current period of declining defense resources, the President of the United States, the Secretary of Defense, and the Chairman of the Joint Chiefs of Staff have articulated how the newly released strategic guidance and budget priorities signify a concerted effort not to "hollow out" U.S. forces. They have affirmed their dedication to preventing the recreation of the ragged military and disastrous deterioration in defense capability the Carter administration allowed to occur. However, it is also time to reexamine the term "hollow army" and its meaning as the inevitable tug of war over defense spending gets underway. This Paper places the "hollow army" metaphor within its historical context: barely 5 years after the United States finally disengaged from a major war (Vietnam), a struggling economy, and an election year in which a President was not only tenuously leading in the polls, but also confronted substantial opposition from elements of his own political party. Over the years, a specific political reading of these events has taken hold. It is the purpose of this Paper to re-read the historical events, and in doing so, come to a better understanding of the domestic political and geostrategic environment during Carter's presidency, the U.S. Cold War strategy, and the assertions made concerning the readiness of the U.S. Army to perform its missions.

*Keeping Faith* Dec 21 2021 Available for the first time in paperback, *Keeping Faith* is Jimmy Carter's account of the satisfaction, frustration, and solitude that attend the man in the Oval Office. *Keeping Faith* is Jimmy Carter's account of the satisfaction, frustration, and solitude that attend the man in the Oval Office. Mr. Carter writes candidly about the crises that confronted him during his tenure as President of the United

States and leader of the free world, from 1977 to 1981. "The President who cared" details his anguish over the hostage crisis in Iran, his triumph against all odds at Camp David, his secret communications with China's Deng Xiaoping, and his dramatic and revealing encounters with Soviet President Leonid Brezhnev, West German Chancellor Helmut Schmidt, and other world leaders. Mr. Carter also shares glimpses of his private world—his feelings of being an outsider in Washington, his relationship with Rosalynn, his pain about the attacks on his friends and his brother Billy. Captivatingly written, this rich historical document delineates a morally responsible president who has continued to earn respect and admiration as a world statesman and advocate for the poor and repressed of all nations.

**His Very Best** Jul 28 2022 "Drawing on fresh archival material and extensive access to Carter and his family, New York Times bestselling author Jonathan Alter tells the epic story of a man of faith and his improbable journey from barefoot boy in the vicious Jim Crow South to global icon. We learn how Carter evolved from a timid child into an ambitious naval nuclear engineer and an indefatigable born-again governor; how as a president he failed politically amid the bad economy of the 1970s and the seizure of hostages in Iran but succeeded in engineering peace between Israel and Egypt, amassing a historic environmental record, moving the government from tokenism to diversity, setting a new global standard for human rights, and normalizing relations with China, among dozens of other unheralded achievements. After leaving office, Carter revolutionized the postpresidency with the bold global accomplishments of the Carter center"-- Cover.

**Living Faith** Aug 05 2020 In an intimate portrait of one man's journey of faith, the former president incorporates scriptural passages, personal experiences, and anecdotes about friends, family members, and colleagues who inspired him to demonstrate how a dynamic faith can enrich one's public and private life. 200,000 first printing. Tour.

**Humor and the Presidency** Jan 28 2020 The former President's favorite funny stories and anecdotes are accompanied by political cartoons

and political humor by Art Buchwald, Chevy Chase, Mark Russell, and Bob Orben, as well as sharp-witted politicians

**Beyond the White House** Dec 29 2019 The former president discusses the initiatives that he has undertaken since leaving the White House, including leading peacekeeping efforts for Ethiopia and North Korea, and establishing the Carter Center to help fight neglected diseases. **The Press And The Carter Presidency** Jun 26 2022 This study is a revision of my doctoral dissertation written at the University of Virginia. As a student of the American presidency I became interested in how presidential leadership is defined, analyzed and assessed. Students of the presidency spend a great deal of time studying leadership theory and debating the merits of different measures of leadership "success." These students draw inspiration for their ideas from noted presidency scholars such as Edward S. Corwin, Clinton Rossiter, and Richard Neustadt.

**A Remarkable Mother** Dec 09 2020 The thirty-ninth president shares a portrait of his mother that relates her humanitarian contributions as an advocate for social justice, describes her Peace Corps volunteerism, and salutes her non-participation in the prejudices of the racially segregated South during the Great Depression. 350,000 first printing.

**Our Endangered Values** Sep 17 2021 The Nobel Peace Prize-winning former president and author of *Sharing Good Times* shares his personal views on moral values as they relate to key issues today, evaluating the controversial and increasing intersection between religious and political arenas. 250,000 first printing.

**A Full Life** Jan 10 2021 In his major New York Times bestseller, Jimmy Carter looks back from ninety years of age and "reveals private thoughts and recollections over a fascinating career as businessman, politician, evangelist, and humanitarian" (Booklist). At ninety, Jimmy Carter reflects on his public and private life with a frankness that is disarming. He adds detail and emotion about his youth in rural Georgia that he described in his magnificent *An Hour Before Daylight*. He writes about racism and the isolation of the Carters. He describes the brutality of the hazing regimen at Annapolis, and how he nearly lost his life twice serving on

submarines and his amazing interview with Admiral Rickover. He describes the profound influence his mother had on him, and how he admired his father even though he didn't emulate him. He admits that he decided to quit the Navy and later enter politics without consulting his wife, Rosalynn, and how appalled he is in retrospect. In his "warm and detailed memoir" (Los Angeles Times), Carter tells what he is proud of and what he might do differently. He discusses his regret at losing his re-election, but how he and Rosalynn pushed on and made a new life and second and third rewarding careers. He is frank about the presidents who have succeeded him, world leaders, and his passions for the causes he cares most about,

particularly the condition of women and the deprived people of the developing world. "Always warm and human...even inspirational" (Buffalo News), *A Full Life* is a wise and moving look back from this remarkable man. Jimmy Carter has lived one of our great American lives—from rural obscurity to world fame, universal respect, and contentment. *A Full Life* is an extraordinary read from a "force to be reckoned with" (Christian Science Monitor). **Who's Running America?** Jun 14 2021 *Through the Year with Jimmy Carter* Apr 24 2022 Presents daily devotions from the former U.S. President, drawing from his personal stories of practical Bible teaching and includes prayers for each day of the year.
