Blues Lyric Poetry Jun 12 2021 This computer-generated anthology serves as a companion to Taft's Blues Lyric Poetry: a Concordance and gives the user the complete poetic context for every word, phrase or line in which he is interested. He also provides a selection of blues lyrics which have never appeared in print before or are scattered. Taft has transcribed over 2,000 blues lyrics from recordings made between 1920 and 1942 and includes over 350 singers such as Josh White, Sonny Boy Williamson, Robert Johnson and Ma Rainey. The anthology includes both country and urban, male and female, "downhome" and vaudeville singers. The songs are arranged according to singer and under each singer, according to dates of recording and sequences in the recording sessions. Information given includes singer, title, place, date and record numbers. The final section is a line-concordance index to the titles of the songs. ISBN 0-8240-9235-X (alk. paper) : \$75.00 (For use only in the library).

Truth and Freedom in the Gospels. The Book of Luke Jun 19 2019 Seminar paper from the year 2011 in the subject Theology - Biblical Theology, grade: B+, , language: English, abstract: If two people who have been living in Nassarawa Gwom, a community in Jos North Local Government Area of Plateau state, Nigeria who have been eye witnesses to any of the Jos crisis are asked to give a report or the story of what they saw and experienced, their story will mostly be similar but with more emphasis and details to events that interest them the most or affects them the most either negative or positive. This was somewhat the scenario of the writers of the synoptic gospels in some sense. Mark and Matthew were Jews, so their gospels, which were written for a Jewish audience reflects the Jewish worldview, Jewish perspectives, style of writing, and a more detail explanation of beliefs, practices and values of the Jews, etc. Luke was a gentile; his style of writing too reflected the gentile worldview, beliefs, practices and values targeted at the gentile audience. For example, to the Jew, a person's family line or genealogy determines his/her identity (genuity, respect and dignity). The Jews also trace their genealogy to Abraham, who was the founder of the Jewish nation. This justifies why Matthew began his writing with the genealogy of Jesus, tracing Jesus' line to David (to show a fulfillment of the OT prophecies that the messiah will descent from the line of David) and to Abraham (who is the father of the Jews, to show that Jesus was related to al the Jews). The gentiles on the other hand believed that Adam is the father of all human beings. This is evident in Luke's gospel; he was a gentile, writing from a gentile perspective, he traced the genealogy of Jesus to Adam. This was to show that "Jesus is related to all human beings. This is consistent with Luke's picture of Jesus as the savior of the whole world." The similarities of the gospel accounts are without differences, there are events that are captured in one account that is not captured in the other. There are instances where Matthew agrees with Luke against Mark. The differences are considered as the synoptic problem but this paper will not delve into the debates concerning that.

Unexpected Joy at Dawn Apr 29 2020 Fifteen years ago, Mama said, starting her story, I came to Lagos from Ghana. I came to Nigeria because I was considered an alien in that country. The government of Ghana passed a law asking all aliens without resident permits to regularise their stay in the country'. This story of migration, identities and lives undermined by cynical and xenophobic politics pushed to its logical and terrible conclusion pertains to the Ghanaian orders of 'alien compliance' issued in 1970-1971, which determined to force all non-ethnic Ghanaians, so called illegal immigrants, to return to their - so stipulated - 'home'. The novel thus touches on concerns of deeper relevance to the politics of race and migration of the twenty first century.

Collective Bargaining in the Public Sector: The Experience of Eight States Jul 21 2019 Unlike Europe, where most public sector workers have long been included in collective bargaining agreements, the United States excluded public employees from such legislation until the 1960s and 70s. Since then, union membership in the U. S. has grown more rapidly among public workers than among workers in the private sector. This book provides up-to-date information on public sector collective bargaining in the United States today. The editors' seek to understand the real nature of PSB by examining eight states where the action is taking place -- California, Hawaii, Illinois, Michigan, New Jersey, New York, Pennsylvania, and Wisconsin. The chapters offer unique case studies of legal origins, developments, and challenges to collective bargaining; negotiations experience and outcomes; discussion of legislation; and emphasis of historical development as well as current practice.

Muzzy Field Aug 14 2021 Few ballparks still in use today can boast of hosting both Babe Ruth and Vince Lombardi during their playing days. Muzzy Field in Bristol, Connecticut, is one of them. In *Muzzy Field*, author Douglas S. Malan retells the stories of the events and people who shaped this municipal ballpark that is so rich in history. Tucked away in the woodsy corner of a public park located within the once-gilded boundaries of a manufacturing city, Muzzy Field's illustrious history began as a charitable land donation in 1912. With the financial backing of the sports-minded management at New Departure Manufacturing, the field became home to one of the area's strongest semiprofessional baseball teams; it also welcomed some of the greatest athletes who played the game from Ruth to Martín Dihigo and dozens of Hall of Fame athletes. From its earliest days, the colorful stories of the great barnstorming era of professional sports defined what has become a grand old dame of New England ballparks. With photos included, *Muzzy Field* relates the long legacy and the fascinating stories of a field that many never knew existed. They are tales from a forgotten ballpark.

Dog Loves Drawing Aug 02 2020 Dog loves books, but one day he receives a strange one in the mail—it's blank! Soon, Dog realizes that this book is not for reading, but for drawing. Before long, Dog is doodling and drawing himself into a new world, full of friends and surprises.

Networks of Empire Jan 27 2020 Exchange programmes have been a part of US foreign relations since the nineteenth century, but it was only during and after World War II that they were applied by the US government on a large scale to influence foreign publics in support of strategic objectives. This book looks at the background, organisation, and goals of the Department of State's most prestigious activity in this field, the Foreign Leader Program. The Program (still running as the International Visitor Leadership Program) enabled US Embassies to select and invite talented, influential 'opinion leaders' to visit the United States, meet their professional counterparts, and gain a broad understanding of American attitudes and opinions from around the country. By tracking the operation of the Program in three key transatlantic allies of the United States a full picture is given of who was selected and why, and how the target groups changed over time in line with a developing US-European relationship. The book therefore takes a unique in-depth look at the importance of exchanges for the extension of US 'informal empire' and the maintenance of the transatlantic alliance during the Cold War.

References to the Old Testament. Matthew's typological appropriation of Jeremiah Nov 24 2019 Seminar paper from the year 2011 in the subject Theology - Biblical Theology, grade: A, , language: English, abstract: Every document today has documents preceding it which is most often referred to as authority or the standard to clarify, buttress, support and emphasis points or issues. The New Testament is no exception to this. The Old Testament and its events preceded the New Testament, so the writers of the New Testament often quoted from and alluded to the Old Testament documents to support and clarify their claims and points. They also quoted and alluded to the Old Testament to explain the circumstances surrounding the birth of Christ and show the fulfillment of the prophecies about Christ. This paper seeks to examine Matthew's understanding and typological appropriation of Jeremiah 31:15 as he referred to the passage in his writing in Matthew 2:18. The Old Testament text which Matthew quoted from is presented through a comparative analysis of the Masoretic Text (MT) and the Septuagint (LXX). The principle which Matthew used in quoting Jeremiah 31:15 and appropriated it to Matthew 2:18 are also presented and how this principle can influence contemporary interpreters in the area of interpretation and explaining the relationship between the two testaments.

It Started in Wisconsin Dec 26 2019 First-hand accounts of the largest pro-labor mass mobilization in modern American history. In the spring of 2011, Wisconsinites took to the streets in what became the largest and liveliest labor demonstrations in modern American history. Protesters in the Middle East sent greetings—and pizzas—to the thousands occupying the Capitol building in Madison, and 150,000 demonstrators converged on the city. In a year that has seen a revival of protest in America, here is a riveting account of the first great wave of grassroots resistance to the corporate restructuring of the Great Recession. *It Started in Wisconsin* includes eyewitness reports by striking teachers, students, and others (such as Wisconsin-born musician Tom Morello), as well as essays explaining Wisconsin's progressive legacy by acclaimed historians. The book lays bare the national corporate campaign that crafted Wisconsin's anti-union legislation and similar laws across the country, and it conveys the infectious esprit de corps that pervaded the protests with original pictures and comics.

Barry's Introduction to Construction of Buildings Oct 24 2019 The five volume series, Barry's Construction of Buildings, has been established as a standard text on building technology for many years. However, a substantial update has long been required, and while doing this the opportunity has been taken to reduce five volumes to two in a more user-friendly format. The introductory volume covers domestic construction and brings together material from volumes 1, 2 and part of 5. The extensive revision includes modern concepts on site assembly, environmental issues and safety, and features further reading.
