*Innovation and Entrepreneurship* Dec 26 2021 How can management be developed to create the greatest wealth for society as a whole? This is the question Peter Drucker sets out to answer in *Innovation and Entrepreneurship*. A brilliant, mould-breaking attack on management orthodoxy it is one of Drucker's most important books, offering an excellent overview of some of his main ideas. He argues that what defines an entrepreneur is their attitude to change: 'the entrepreneur always searches for change, responds to it and exploits it as an opportunity'. To exploit change, according to Drucker, is to innovate. Stressing the importance of low-tech entrepreneurship, the challenge of balancing technological possibilities with limited resources, and the organisation as a learning organism, he concludes with a vision of an entrepreneurial society where individuals increasingly take responsibility for their own learning and careers. With a new foreword by Joseph Maciariello

**In Battle for Peace** Jan 27 2022 W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, *In Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial—he was later acquitted—and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.

Hav Dec 02 2019 A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

Porsche 911 Jul 21 2021 The thinking man's sports car: a symbol of the relentless desire for peak power and limitless performance. The Porsche 911 inspires a worldwide ripple effect. When Ferdinand Porsche could not find a sports car he liked, he decided to build one himself. And now, the rest is history: Jerry Seinfeld drives it; Boris Johnson admires it; Steve McQueen loves it; and Jeremy Clarkson hates it. The Porsche 911 moves the world. Despised by many in Germany as a set of wheels for fat cats, it is the favorite car of free spirits and intellectuals in the U.S. and across the globe. The Porsche 911 was not just invented by one of the most fascinating and controversial families - it is also a technical masterpiece. Since its launch in 1963, the 911 has built a reputation for itself as "the thinking man's sports car." Both a car and a cultural icon, it has earned a fan base that spans from young to old, East to West, connoisseur to enthusiast. Porsche 911: The Ultimate Sportscar as Cultural Icon explains how this German car became a global phenomenon and a symbol of aspiration, freedom, and the appetite for perfection, and even more, why, around the world, the 911 continues to fascinate gentlemen, ladies, and rogue drivers. In this book, Ulf Poschardt sends Porsche drivers to the shrink and concludes that a little narcissism can be a healthy thing; he then takes them on an engaging journey through the checkered history that defines their pride and joy. Not everyone can, nor indeed should, drive a Porsche, but Porsche 911: The Ultimate Sportscar as Cultural Icon lays bare the raw driving force behind the 911 for anyone intrepid enough to discover.
