Upgrading Your Boat's Interior Jul 23 2022 The second in a series of highly practical, hands-on, step-by-step photographic manuals, *Upgrading Your Boat's Interior* fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat maintenance and repair manuals, can't go into the level of detail Mike Westin does. This is a visual, hand-holding guide, dwelling on the practical details of upgrading every aspect of a tired boat's interior and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). It's surprising how a few simple renovations and upgrades can transform the look and comfort of a cabin. Anyone planning to attempt these projects will find this photographic step-by-step book a hand-holding godsend.

Police Boats and Coast Guard Ships Sep 01 2020 Police, customs and coast guard boats have a large number of enthusiasts among model ship builders due to their tasks, but above all due to their interesting appearance. In addition, these types of ships can be equipped with numerous special functions. Due to their usually high cruising performance, they are also ideal for those who want a fast model but do not like a yacht or a military speedboat. The model building companies have recognised this and have recently brought a number of construction kits of RC ship models of this type onto the market. Let the author Gerhard O. W. Fischer inspire you with his richly illustrated descriptions of this variant of RC ship modelling! From the content: • The tasks of the Coast Guard • Visit to the Albatros II • RC model Albatros I
